- **Driving license**

A, B, C, E category

- **English**

Advanced level

## MY PROFILE

I am a 37-year-old traffic engineer and beside my full-time employment, I enjoy coding in my free time.

In the near future, I would like my hobby to become my main job.

I have completed more courses on Udemy for QA ( Selenium, Cypress, Postman), and also finished the IT Academy in two semesters for Microsoft Web Development.

I worked on front-end projects and a little bit the backend programming, but later the priority mainly became QA testing.

## EXPERIENCE-IT PROJECT

### PROJECTS

#### Github Portfolio

There are more projects which I did in Selenium, Cypress and Websites that I have worked on that can be viewed in more detail on the website portfolio:
